**Algebraic Methods in Semantics** Maurice Nivat, John C. Reynolds

This book, which contains contributions from leading researchers in France, USA and Great Britain, gives detailed accounts of a variety of methods for describing the semantics of programming languages, i.e. for attaching to programs mathematical objects that encompass their meaning. Consideration is given to both denotational semantics, where the meaning of a program is regarded as a function from inputs to outputs, and operational semantics, where the meaning includes the sequence of states or terms generated internally during the computation. The major problems considered include equivalence relations between operational and denotational semantics, rules for obtaining optimal computations (especially for nondeterministic programs), equivalence of programs, meaning-preserving transformations of programs and program proving by assertions. Such problems are discussed for a variety of programming languages and formalisms, and a wealth of mathematical tools is described.

### **From reader reviews:**

#### **Pauline Jones:**

This book untitled Algebraic Methods in Semantics to be one of several books that best seller in this year, here is because when you read this publication you can get a lot of benefit on it. You will easily to buy this kind of book in the book shop or you can order it via online. The publisher of the book sells the e-book too. It makes you quicker to read this book, as you can read this book in your Cell phone. So there is no reason for you to past this book from your list.

#### **Helen Velez:**

This Algebraic Methods in Semantics is great e-book for you because the content that is certainly full of information for you who else always deal with world and possess to make decision every minute. This kind of book reveal it facts accurately using great organize word or we can point out no rambling sentences inside. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but hard core information with lovely delivering sentences. Having Algebraic Methods in Semantics in your hand like obtaining the world in your arm, details in it is not ridiculous one. We can say that no book that offer you world with ten or fifteen second right but this reserve already do that. So , this really is good reading book. Hi Mr. and Mrs. occupied do you still doubt that will?

#### **Jenny Perez:**

Reading a book for being new life style in this yr; every people loves to study a book. When you go through a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information on it. The information that you will get depend on what types of book that you have read. In order to get information about your research, you can read education books, but if you want to entertain yourself look for a fiction books, these kinds of us novel, comics, in addition to soon. The Algebraic Methods in Semantics provide you with a new experience in studying a book.

#### **Kathryn Cortez:**

Guide is one of source of understanding. We can add our expertise from it. Not only for students but additionally native or citizen have to have book to know the upgrade information of year in order to year. As we know those publications have many advantages. Beside we all add our knowledge, may also bring us to around the world. From the book Algebraic Methods in Semantics we can acquire more advantage. Don't that you be creative people? Being creative person must love to read a book. Only choose the best book that suited with your aim. Don't possibly be doubt to change your life with that book Algebraic Methods in Semantics. You can more appealing than now.
