Concurrent Programming (International Computer Science Series)

Alan Burns, Geoffrey Davies

Concurrent Programming (International Computer Science Series) Alan Burns, Geoffrey Davies

This collection of recent papers in the increasingly important area of concurrent programming is divided into sections dealing with concurrent programming languages and their implementations, concurrent programming models and current issues and problems. Brinch Hansen, Tony Hoare, Olivier Roubine and Nicholas Wirth are some of the eminent academics in this field who have contributed to this book. There is an editorial introduction between each section, establishing and elaborating on the concepts and theories that run through the book.
