Are you a self-confessed horror freak? Are there few things you love better than a good horror story to tell around a campfire or at parties? Let's face it, ghost stories make for great conversation topics. A little macabre, sure, but entertaining nevertheless.

It is often difficult to explain what lives in the beyond, why certain paranormal activities take place the way they do, cold spots, mysterious happenings and the likes. It does not matter if you think ghosts are real or just a figment of someone's imagination. Everyone believes in a good horror story if it is spooky enough.

Strange happenings have occurred across the globe that there is no possible explanation for, things that are outside the reach of scientific clauses and reasoning. Apparitions, noises and EVP readings are things that point to the unknown, telling us it exists, yet science cannot provide a reasonable explanation as to why it might be true.

Make sure you check for monsters under your bed, say a silent prayer before you go to bed and be wary of what lays in the dark, for this book compiles the spookiest, most eerie true horror stories of all time!
