RETURNING TO ZION: CHRISTIAN AND JEWISH PERSPECTIVES

No political ideology in the world today is more controversial than contemporary Zionism. The story of the Jewish people's rights to Zion, their first entry and their promised return to Zion ancient, rooted in the Bible. And both the history of the Jewish people and their religion testify to the Jewish people's presence on and continual longing for Zion. Yet the modern return of the Jewish people to their ancient homeland and the establishment of the Jewish State of Israel has produced a host of Zionist and anti-Zionist theories. There are two dominant pro-Zionist theories: Zionism as the exclusively secular Jewish variety of modern nationalism, and Zionism as the expression of the necessary historical movement toward the messianic era.

During 2010-2012, The Institute for Theological Inquiry invited Christian and Jewish scholars to reflect on the theological significance of the modern return to Zion, trying to chart paths that are faithful to Christian and Jewish faith traditions and that stake out a sober middle between the thoroughly secular understanding of Israel and the deterministic messianic one. The six original essays in this volume are the fruits of that project conducted in Princeton, New Jersey and Israel.
