Building Necessary Reading & Study Skills contains one of the best approaches to Study Skills and Reading Improvement on the market today.

Chapter 1: Discusses what it is that makes a good reader and what skills are necessary to obtain that goal.

Chapters 2-3: Teaches the importance of vocabulary development to the entire reading process.

Chapters 4 &5: These chapters cover the basics of the thought processes that start a person on the path to developing thinking skills associated with reading.

Chapter 6: Explores the reading/writing connection and provides a very useful three step process that clearly shows how the majority of writers organize their work.

Chapters 7 & 8: The PROCTRM Study Technique. Since developed by the author, in 1995, it has been used in colleges, universities, and high schools with remarkable success. It is a proven method to help students achieve higher grades and more success in school and in life. Most students (even at the university level) have never been formally taught how to study and create good notes. These chapters solve that problem.

Chapter 9: Students are able to discover the patterns used in text and how to take advantage of that knowledge when decoding information.

Chapters 10-11: Discovering why an author wrote a given piece, separating facts from opinions, and looking for deeper meaning in the readings comprises these chapters.

Chapter 12: Provides a comprehensive, and unbiased, look at newspapers and the newspaper industry. It clearly discusses the importance of newspapers in our daily lives.
