Rethinking Cultural Resource Management in Southeast Asia: Preservation, Development, and Neglect (Anthem Southeast Asian Studies)

Presenting both the need for – and difficulty of – introducing effective cultural resource management (CRM) in the region, 'Rethinking Cultural Resource Management' in Southeast Asia explores the challenges facing efforts to protect Southeast Asia's indigenous cultures and archaeological sites from the ravages of tourism and economic development. Recognising the inapplicability of Euro-American solutions to this part of the world, the essays of this volume investigate their own set of region-specific CRM strategies, and acknowledge both the necessity and possibility of mediating between the conflicting interests of short-term profitability and long-term sustainability.
