Rhetoric and English Literature. Such other persons as are led by their inclinations to spend their leisure hours in the reading of the English poets, or in wooing the Muses, may receive from it valuable assistance. It is thought to supply an important desideratum. It is a matter of surprise to the foreign student, who attempts the study of English poetry and the structure of its verse, to find that we have no work on which he can rely as authority on this subject. In the other modern languages, the most learned philologists have treated of the subject of versification, in all its parts. In English alone, in a language which possesses a body of poetical literature more extensive, as well as more valuable than any other modern language, not excepting the Italian, the student has no rules to guide him, but a few meagre and incorrect outlines appended to elementary text-books.
