G. Tyler Miller's worldwide bestsellers have evolved right along with the changing needs of your diverse student population. Focused specifically on energizing and engaging all your students, Miller and new contributor Scott Spoolman have been at work scrutinizing every line--enhancing, clarifying, and streamlining to reduce word density as well as updating with the very latest environmental news and research. The resulting texts are shorter, clearer, and so engaging that your students will actually want to read their assignments. About half the price of other environmental science texts, this 14-chapter, one-color core text offers an integrated approach that emphasizes how environmental and resource problems and solutions are related. New to this edition for instructors is PowerLecture, a one-stop shop for lecture prep that includes everything you need to create dynamic lectures all in one place.
