God Is Not Great: How Religion Poisons Everything Christopher Hitchens

In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris' recent best-seller, *The End of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's view of the universe, and Moses and the burning bush give way to the beauty of the double helix.
