Brain Wars: The Scientific Battle Over the Existence of the Mind and the Proof that Will Change the Way We Live Our Lives Mario Beauregard

In *Brain Wars*, acclaimed neuroscientist Mario Beauregard reveals compelling new evidence set to provoke a major shift in our understanding of the mind-body debate: research showing that the mind and consciousness are transmitted and filtered through the brain—but are not generated by it.

Following his boundary-breaking neuroscience book *The Spiritual Brain: A Neuroscientist's Case for the Existence of the Soul*, coauthored with Denyse O'Leary, *Brain Wars* makes a powerful and provocative case against the widely held view equating human beings to complex biological computers.

Like Jeffrey M. Schwartz, Beauregard believes that consciousness is more than simply a physical process that takes place in the brain. And here, he presents the evidence to prove it. *Brain Wars* will revolutionize the way we think about thinking forever.
