<http://joelcomiskeygroup.com/plant.html> You can also call: 1-888-344-2355 (Joel Comiskey Group). This book clearly explains how to plant churches that are simple enough to keep on reproducing and even grow into a movement of churches. *Planting Churches that Reproduce* is the fruit of Comiskey's extensive research and personal experience (three church plants in a wide variety of settings). Comiskey not only uses the latest North American church planting statistics but also extends the illustrations to include worldwide church planting. More than anything else, this book will provide practical solutions for those planting churches today. Comiskey's book is a must-read for all those interested in starting Christ-honoring, multiplying churches. — LEONARD SWEET (Drew University) wrote: Better late than never but best never late. Where has this book been? How different might the church be today if Comiskey's invaluable resource had been available even ten years ago? Don't discover Comiskey ten years from now and exclaim, Where have I been! The book we've needed and been waiting for is here now. Tag, you're it. ALAN HIRSCH (Author of *The Forgotten Ways*) wrote: Here is a thoroughly practical, encouraging and thoughtful contribution to the small but growing body of literature on multiplication movements. This is an important book not only because it involves a return to a more genuinely biblical ecclesiology but also because it envisions the much more dynamic form of church that will advance the cause of Jesus in the 21st Century. JEANNETTE BULLER (Church planter and coach) wrote: Joel Comiskey brings both his experience and the experience of others together in a clear, easy to understand fashion that will be helpful to any simple church planter today. As I read, I kept thinking of chapters I wanted to recommend to the various church planters I coach. Based on timeless principles of church planting, Comiskey lays a firm foundation for multiplying churches which I believe is on the heart of God. His practical application of these principles keeps the reader focused on the path toward church planting success. BOB ROBERTS (Pastor NorthWood, author of *The Multiplying Church*) wrote: Joel Comiskey does a great job in his book of explaining what a simple church is and how to plant them. He provides solid theology, numerous examples and strategic steps for planting simple churches. We will use it with our planters as a resource. I've read a lot of books on simple, cell, house churches defending them or promoting them - I don't think I've read anything as clear and as concise as this or as practical to get them started as this. PETER WAGNER (Presiding Apostle, International Coalition of Apostles) wrote: Joel Comiskey's lifelong passion for multiplying churches does not allow him to get stuck in the past. I love this excellent book because it is a book for the future. Joel's blueprint will help many find their proper position for enriching their life and for extending the kingdom of God. DR. TOM JONES (Stadia East Regional Director) wrote: Joel Comiskey is a veteran church planter. His new book *Planting Churches that Reproduce* is biblical, practical and inspirational. If indeed church planters are going to get serious about evangelistic reproducing movements that start new testament churches then we must take a long and creative look at Simple churches or some variation of the house church movement. The typical suburban church planting model will not get the job done alone. JIMMY SEIBERT (senior pastor of Antioch Community Church) wrote: Over the last ten years Joel's writings and research have deeply influenced who we are as a people. His genuine love for Jesus and his heart to capture what God is doing and saying is bearing great fruit for the body of Christ. His latest book, *Planting Churches that Reproduce*, is at the heart of what God is speaking to the body of Christ worldwide, whether in the United States or around the world. RALPH NEIGHBOUR (author, professor, and church planter) wrote: Once again, Joel Comiskey has felt the pulse of the body of Christ and has given a prescription for its well being. This book is

a combination of spiritual insights coupled with personal experience in the field of planting Biblical communities. I recommend this for the group that God forms to form a new Christ centered missional congregation. BEN WONG (founder of CCMN) wrote: Joel Comiskey's books have always been a blessing to me personally they have brought special insight into issues that people in cell churches are interested in. Joel, you have out done yourself again! You have written a book that will be used to bring the house church and cell church people together. Well done! All those who are interested in the new move of God for these final days must read this book! BOB LOGAN (author, professor, and church planter) wrote: Planting Churches that Reproduce is a good solid manual for planters who want to get back to the basics and discover what church is really all about. Comiskey helps Christian leaders make the paradigm shift from buildings and events to people and evangelism--and then provides clear strategies for moving forward. He underscores that what makes a church effective is not about size so much as it is about how well it can reproduce. AUBREY MALPHURS (lead Vision Navigator with the Malphurs Group) wrote: If you're a church planter or part of a church plant that is passionate about reaching the Next Generation-the future of the North American church, then this book is a must read!
