Contemporary art is the object of inflated and widely divergent claims. But what kind of discourse can open it up effectively to critical analysis? *Anywhere or Not at All* is a major philosophical intervention in art theory that challenges the terms of established positions through a new approach at once philosophical, historical, social and art-critical. Developing the position that “contemporary art is postconceptual art,” the book progresses through a dual series of conceptual constructions and interpretations of particular works to assess the art from a number of perspectives: contemporaneity and its global context; art against aesthetic; the Romantic pre-history of conceptual art; the multiplicity of modernisms; transcategoriality; conceptual abstraction; photographic ontology; digitalization; and the institutional and existential complexities of art-space and art-time. *Anywhere or Not at All* maps out the conceptual space for an art that is both critical and contemporary in the era of global capitalism.
