The SAGE Handbook of Architectural Theory (Sage Handbooks)
The SAGE Handbook of Architectural Theory documents and builds upon some of the most innovative developments in architectural theory over the last two decades. Bringing into dialogue a range of geographically, institutionally and historically competing positions, the book examines and explores parallel debates in related fields. The book is divided into eight sections:

- Power/Difference/Embodiment
- Aesthetics/Pleasure/Excess
- Nation/Spectacle/Modernity
- History/Memory/Tradition
- Design/Practice/Production
- Technology/Science/Virtuality
- Nature/Landscape/Sustainability
- City/Metropolis/Territory

Creating openings for future lines of inquiry and establishing the basis for new directions for education, research and practice, the book organizes itself around specific case studies to provide a critical, interpretive and speculative enquiry into the relevant debates in architectural theory. A methodical, authoritative and comprehensive addition to the literature, the Handbook is suitable for academics, researchers and practitioners in architecture, urban geography, cultural studies, sociology and geography.
